

Basic History

The Duffy/Greenstone area has a rich history of riding and racing with National events, 2-day events, hare scrambles and enduros. The primary riding area is the Duffy Lake/Greenstone Mountain area with two additional areas at Inks Lake and Chuwhels Mountain.

Thru the efforts of the Greater Kamloops Motorcycle Association (GKMA) in existence for over 40 years; three main areas are promoted for racing and recreational camping/riding.

Duffy Lake Campground

Located 45 minutes from Kamloops, this multi-use campground provides 53 campsites, great fishing (2-4lb rainbow trout) and cool water for swimming after a dusty ride. GKMA has a Partnership Agreement with Recreation Sites and Trails BC to manage and maintain the Duffy Lake campground. Volunteers provide garbage pick-up, infrastructure repairs/maintenance and fee collection. Fees collected by GKMA volunteers go directly back to trail maintenance and costs associated with site operations.

Pendleton Creek Campground

Located approximately 10km before Duffy Lake this multi-use campground can accommodate up to 25 vehicles units. The Greater Kamloops ATV Association manages the Pendleton Creek campground through a Partnership Agreement with Recreation Sites and Trails BC. The agreement provides for the collection of fees to cover the cost of managing and maintaining the campground and local trails

The Future of This Trail System Depends on YOU! Respect the Land, the Water, the Wildlife and the Rights of Others. Please Ride Responsibly!

- Only designated trails that are signed and on the map.
- Riders may be cited for operating a vehicle on a trail not intended or signed for that use.

What Do You Need To Know

Before You Go

- Quads riders should refer to map/legend for list of trails where riding is permitted.
- Larger OHVs are permitted on roads only.

Things to Avoid;

Where Can I Ride?

- deactivated roads or trails.
- making your own trail.
- muddy trails, wet areas, or travelling through water holes.
- No mudbogging.
- Forest Service Roads (FSRs) unless you have proof of liability insurance (\$200,000 min) and a valid driver's licence and must wear a helmet.
- travelling on a trail that can cause erosion problems, such as steep hillsides and road cut-banks.
- grazing leases.
- trails that are narrower than your vehicle.
- spinning wheels/tracks to create rooster tails and quick, hard acceleration that ruts and erodes trail surface. Accelerate slowly.
- disturbing livestock and damaging forage. Give livestock the right of way and do not spook cattle.

Winter Riding?

- Only designated trails that are signed and on the map.
- Do not ride areas with less than 30 cm of snow.
- Spiked tires can damage the environment.
- Do not ride where soil/plants are visible, to avoid damaging soils and vegetation.

What Else Do I Need To Know?

- Helmets must meet the Canadian Standard Association (CSA).
- Operating an OHV under the influence of drugs or alcohol is strictly prohibited.
- Riders may be cited for operating vehicles in a careless, reckless, or damaging manner on or off trail. Please Tread Lightly!
- Operating a vehicle in a manner that threatens the safety of others or property is prohibited.

REQUIRED TO RIDE

Conserve, Protect and Enjoy!

Trail Stewardship and Trail Maintenance

The Duffy Lake/Greenstone area has 132 km's of signed designated trails. A wide variety of easy and technical trails are available to ensure good riding for all. Approximately 80% of the trail network is easy to moderate in difficulty rating. The Duffy Lake/Greenstone area has connecting trails to the Chuwels/Inks Lake riding area;

check your fuel before heading out on the approximate 80 km of loop trail.

Volunteers from local OHV groups have made a significant effort in recent years to clear excessive blow down attributed to the current Forest beetle infestations. Volunteers continue to remove this dead timber as blow down occurs.

The Big Picture

Dispersed camping and riding in the Duffy/Greenstone area has been detrimental to adjacent sensitive grasslands and ecosystems and are a significant safety concern along the Duffy FSR during periods of heavy industrial traffic. In response; some areas have been closed to camping and "Trail Sustainability Assessments" have been completed to determine trails and areas requiring remediation or closure. Please respect the environment, stay on designated trails and only camp at the Duffy Lake and Pendleton Creek campgrounds.

It should be noted that closures are as result of consultation with local government officials and affected stakeholders; including First Nations, range tenure holders, forest licensee's, and recreation

The Duffy/Greenstone area requires further improvements (trail signage, trail rehabilitation etc.) to better improve, manage and preserve the riding experience for all.

VILEGE TO RIDE

stay on the trail

and have a great time!

Duffy - Greenstone Off Highway Vehicle Trail Map

Please obey all posted signs, rules and regulations, respect others and enjoy your stay!

Trail Closure Marker

Open to motorcycles only.

Open to motorcycles & ATVs less than 50" in width.

Signs with a yellow slash indicate the route is not recommended for such use

Signs with a red slash indicate that the use is prohibited.

Degree of Difficulty

Ratings are assigned to trails under ideal conditions and are based on difficulty compared to other trails in the area. A trail rated easiest by GKMA's standards could possibly be rated intermediate or even expert elsewhere. Trail conditions are always subject to change due to the weather and other acts of nature.

Road or Trail Restrictions

Please obey any posted signs restricting OHV use of roads & trails.

Please report all forest fires. Phone toll-free: 1 800 663 5555
